From Field and Forest, an exhibition by Diana Zasadny. Born and raised in Lethbridge Alberta, Diana paints who she is – bringing her appreciation of nature born of her love of the prairie and sky – to all her compositions. Focusing primarily on landscape, Diana blends the boundaries of impressionist interpretation and contemporary abstraction into a glimpse of that elusive realm of life between reality and imagination. This work demonstrates her experimentation with acrylic paint on canvas, resulting in a unique style of expression. For more information about the artwork, please visit www.dianazasadny.net.
